DOCTORS MISTAKES

Are said often to be buried six feet under Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kid-ney disease, another from narvous pros-tration, another with pain here and there, and in this way they present alles to ney disease, another from harves present ration, another with pain here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, for which he, assuming them to be such prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, sonorant of the cause of suffering, keps up his treatment until large bills are mide. The suffering patient gets no better he reasons of the wrong treatment, but probably worse. A proper medicine like Dr. Plerce's Favorite prescription, directed to the cause would have entirely removed the disease, thereby dispering all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician,

seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Plerce's Favorite Prescription is the greatest earthly been, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuraligh, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon fonctional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

GUACIA CALLA MOBBED. According to a Portsmouth (N. H.) dispatch the scenes of the days when the people of New England stoned witches were re-enacted in that place yesterday when a thousand men, women and children mobbed Glacia Calla and later stoned the office io which she was sitting in conference with her attorney, John M. Bartlett.

She remained in the office three hours.

Doring that time the mob outside grew larger and larger. They shouted and estcalled. Growing even more impa-tien, they began to throw snow balls and pieces of ice against the windows and shake their fists at the singer when they could get a glimpse of her through

Finally, it became necessary to eall upon the police to disperse the crowd, as it was feared Miss Calla would suffer

bodily injury when she came out.

The crowd accosted Miss Calls when she was near the lawyer's office and made a rush toward her. They surrounded her, many shouting iosults, and she was entirely unable to advance. Her destination was just across the

street, but she could not reach it. Finally the police were colled and forced a way through the crowd for her. The police were then kept in readiness in case they should be needed later, and were on hand to protect her when she left the

Mrs. Roy, in an interview, denied that she wanted her brother's death to appear as a murder in order to obtain his life insurance. She admitted that after meeting her husband in 1905, at the races, they lived together, and were not married until they came to America.

Paul H. Roy, accompanied by a lawyer, yesterday afternoon went to the of-

ice of the procureur general in Paris to put himself at the disposition of French justice it a demand for his prosecution should be presented by the American government. He was informed that nothing concerning him had been re-The opinious of experts are quoted in the press, to show that It is contrary to French custom to grant ex-tradition against a Frenchman. If a charge is brought against a Frenchman his trial must occur in France.

NO PLANETS BETWEEN EARTH AND MERCURY.

That there are no planets between the sun and Mercury and that scientists will have to build up some other theory to explain why Mercury does not move in the regular orbit described for it are the conclusions Professor W. W. Camp bell, the head of Lick Observatory California, has arrived at from the development of photographic plates at Flint Island several months ago. They how the complete absence of any planet between the sun and Mercury. For fifty years astronomers have been disturbed by the problem that Mercury does not follow the path or orbit which should be its natural course, and which mathematical astronomy has outlined for it. That there was some force pulling it from its orbit and that this compelling force was the attraction of planets intervening between it and the

oun was the general theory.

Professor Campbell last Tuesday said: "These photographic plates dispose of this theory and mathematicians will have to look elsewhere for forces. While the plates have not received their final development they make the absence of planets certain.

CHARGES AGAINST MINISTER AND DOCTOR.

Rev. Clyde Gow, paster of the Methodist Church South, at Elsberry, Mo., for whom a warrant was issued in connection with the death of Miss Elizabeth Glesson, granddsughter of the tounder of the town, was arrested Thursday. A posse, headed by Constable Alvis, had been hunting for him since he left Elsberry Tuesday. He was taken to Troy, the county seat, and put in jail. Dr. W. A. Hemphill, a prominent physician, who was arrested when the coroner's jury returned a verdict that Miss Glesson had died from an opera-tion, attends Rev. Mr. Gow's church. Mrs. Sarah Glesson, the girl's mother, testified at the inquest that her daughter told her on her deathbed she was dying from an operation by Dr. Hempbill, and said: "Mother, I have been deceived by Mr. Gow.
